SCOPE OF WORK :

The Contractor shall be responsible for Maintenance the Cable Fault Locating Machine and vehicle of appropriate along with experienced technician, helpers and driver etc. by their own end for locating the 33 KV / 11 KV / LT Cable Fault on round the clock basis.

The Contractor shall be responsible for providing the Cable Fault Locating Machine of appropriate and latest version & specifications along with experienced technician, helpers and driver etc. by their own end for locating the 33 KV / 11 KV / LT Cable Fault on round the clock basis.

Pin pointing within one meter of cable fault, exposing the same in the underground HT / LT cable (33 KV / 11 KV / LT) including cutting of the Faulty Cable, its meggering & sealing of healthy cable.

In addition to locating and pin pointing of cable faults, the contractor shall also be responsible for digging of cable trench of suitable size so as to enable making of cable joints (one or two straight through joints depending on the requirements), it shall also include cutting of the faulty cable in sufficient length.

Road cutting & digging thereof so that cable may be taken out for jointing work. Dressing of road as may be required at various places of EUDC-I, Noida The outdoor/Indoor termination kit, straight through jointing kits and cable jointer shall be provided as Item Rate BOQ.

WORK SCHEDULE:

- i) The work of pin pointing and locating cable in fault in underground HT / LT cables shall be executed/started by the contractor within one hour of giving call or message to this effect. The contractor may be required to attend more than one fault simultaneously JE/SDO will call/sms to the contractor about the fault and will keep a record of screen shot of call/message log. Log details will also be maintained by contractor and will be attached with bills produced for payment.
- ii) The contractor will dig the cable trench in such a manner so as to avoid any damage to the cable or any other public utilities existing under the ground.
- iii) The fault location shall to be done throughout the entire link to pin point all the faults and making its possible to revive the link in such a manner so that the link under breakdown gets operational within minimum period to time.
- iv) the contractor shall be required to carry out the fault location work for 24×7.
- v) **In the event of inaccurate pin point/exposing the contractor will have to bear the expenditure incurred in locating the fault. For inaccurate pin pointing exposing, a flat 5% penalty of the job work will be deducted from the bills of contractor.**
- vi) The Cable fault locator machine, other tools/ equipment's and testing facilities etc. shall be provided by the contractor. It shall be responsibility of the contractor to arrange experienced technical staff and labours required for the tendered work at their own cost.
- vii) The contractor shall be fully responsible for safety of their gang as for payment of compensation in case of any accident during the execution of the work, including third risk/claim as legally applicable. The engineer of contract shall have full right for recovery against such claims/compensation from the contractor.
- viii) The contractor will complete the work within 6 hours after reporting at site of fault. For delay in completing the work a penalty @ 5% of the job work per hour for first two hours and @ 3% for subsequent hours up to a maximum of 25% of the job work will be deducted from the bills of the contractor.
- ix) Any damage or loss of public property/Board's materials shall have to be borne by the contractor.
- x) The quantity of cable fault/digging of trench may vary up to the extent of $\pm 50\%$ (Fifty Percent) on either side on same rates, terms & conditions for which no claim of the contractor will be entertained.
- xi) JE/SDO of concerned area will have to ensure proper shutdown & supervise the work.
